

ClassicStar® NIV Full-Face Mask Consumables and Accessories

ClassicStar NIV full-face mask is designed for non-invasive ventilation therapy. Because the mask covers the nose and mouth, it provides effective therapy, even in case of mouth breathing. This portfolio supports premium comfort with anatomical fit and real seal.

ClassicStar® SE (with Standard Elbow)

The blue elbow indicates that the mask has neither an Anti-Asphyxia Valve nor exhalation ports.

ClassicStar® AAV (with Anti-Asphyxia Valve)

The white transparent elbow includes an Anti-Asphyxia Valve that ensures convenient access to room air in the event of reduced pressure ($< 3 \text{ cm H}_2\text{O}$). Exhalation ports support CO_2 elimination during non-invasive ventilation.

Benefits

ClassicStar® NIV Full-Face Mask

The ClassicStar NIV full-face mask is for single patient use.

The Dräger Sizing Gauge helps you to choose the right mask size - there is no need to open the mask package.

- The ClassicStar NIV full-face mask has an air-filled mask cushion, which can be adjusted individually to the patient's face. The mask cushion can be inflated or deflated by means of a pump ball. Due to its adaptability, the ClassicStar mask provides increased comfort and effective seal.
- The ClassicStar mask cushion allocates pressure over a larger surface area, which helps to avoid skin irritation.
- The forehead support distributes pressure from the bridge of the nose. The forehead pad and forehead support are adjustable to match the patient's forehead curve.
- The 6-point headgear provides a stable and secure fixation, thus reducing mask displacement and pressure. Safety release is integrated into the headgear for quick removal of the mask.
- Optional fixation points on the mask frame allow for the choice of the most convenient and stable headgear fastening position for each patient.
- The ClassicStar swivel is moveable at 360°. In addition, the swivel can be moved vertically (SE version only), providing more flexibility.

Ordering Information

ClassicStar SE	Packing unit	Order number
ClassicStar SE, full-face mask for non-invasive ventilation with Standard Elbow, size S	1 pc.	MP01573
ClassicStar SE, full-face mask for non-invasive ventilation with Standard Elbow, size M	1 pc.	MP01574
